Subject: basic info for TO on 404(g)

Hi Pat,

As you requested, here are background materials so we can get started on the TO. I've provided:

- Links to the EPA process for rulemaking – this will be a Tier II. Flow chart attached. Also, a draft analytical blueprint is attached.
- Link to the EPA regulations. - <https://www.gpo.gov/fdsys/granule/CFR-2011-title40-vol25/CFR-2011-title40-vol25-part233>
- Attached a rough draft of an analytical blueprint/schedule. We are really at step 5 in this “copy of 404g Schedule” it is developed in number of days.
- Attached a one-page communication plan – we will need a more robust one once we have schedule etc pulled together.
- Attached the potential updates for the rule – much will be technical in nature, but there will be areas like assumable waters, criminal enforcement and ESA that folks will want to discuss and will have varying opinions.

We have an internal workgroup and we'll need to set up meetings etc.

I will share my screen with you when we talk so you can see some of the ADP info and let me know what you actually want me to copy for you.

Let me know if there is something else you need from me at this time.

Have a great weekend, Kathy

Kathy Hurlid
